

VERY
INDIVIDUAL
PRODUCTS
TO PUSH!

WE COMBINE TRADITIONS AND INNOVATION FOR MORE THAN 60 YEARS.

The name Kesseböhmer stands for innovative solutions and a powerful blend of design, function and quality. Today the Kesseböhmer group is still owned and managed by the current generation of the founding family.

Kesseböhmer is a family-run business originally founded in 1954.

2 550 employees produce:

- Special solutions for furniture fitting systems. The group is one of the leading kitchen furniture industry suppliers and distributes on a world-wide basis.
- Fitting and furniture systems for the motorhome industry.
- Product presentation systems such as displays, product stands, shelves, shop-in-shop systems.
- Ergonomic Engineering for the office furniture industry.
- Components for the automotive industry.
- Hi-end hotel equipment under ViPush® brand.
- We are certified ISO 14001, ISO 9001, ISO 50001

Our core competence is in metal processing. We work with wire, flat band and tubing and our products are finished in our in-house electroplating and powder-coating facilities. Strong customer orientation and bespoke project approach has helped Kesseböhmer to achieve and maintain its position as the leading supplier of functional, highly customizable solutions for retail, kitchen & bathroom, storage, ergonomics and hotel industries. Kesseböhmer has also launched the new business directions as a supplier of highly specialized components for industry and has grown the new business area successfully in recent years.

Under viPush Hotel Equipment brand which was specifically created by Kesseböhmer Warenpräsentation to regroup its hotel activities, we produce & supply elegant, high quality and innovative solutions for international hotel industries. Our hotel products concepts are associating solid and long-lasting structures with newest designs and latest innovation trends. Our solutions help end users to make the best use of available space and to streamline work processes. Many of our products are assembled without tools using snap-on connections. It saves time and ensures that the end result meets the highest standards.

Kesseböhmer Warenpräsentation has a high level of vertical integration, with all production processes in-house. We also engineer and build key elements of our production machinery and tooling. This strategy cuts development time from a new idea to a quality product:

Functions that delight. Designs that impress. Quality that sets standards.

New player on the worldwide hotel equipment scene, viPUSH® could quickly make his proofs as a reliable hotel partner offering an individual and personalized approach to every need as well as a technical and overall design excellence.

Your reception is your showcase. The atmosphere and the quality of your reception are the first markers of the status of your hotel. It is here that your customers, often arrived after a long trip, have to feel in absolute comfort and be taken care of in the best of the manners.

May they need an exclusive welcome or rather the discreet check-in, may they wish to be in the center of everybody's attention or, on the contrary, under cover - our solutions are the best adapted to allow your reception department to take care of all cases in the best possible way.

The cleanliness of your guest rooms and linen is a core indicator for your customers. The efficient and discreet housekeeping operations are the warranty of your guests' serenity and satisfaction. At viPush®, we believe that our HSK carts can combine both the fluid high-end design and the latest technical and functional innovations. All that to equip your house maids with the bespoke work tool for the impeccable service!

HOUSEKEEPING /
ROOMS

HOUSEKEEPING TROLLEY

WHEN THE FUNCTIONALITIES
AND THE AESTHETICS
PERFECTLY FIT TOGETHER

What makes viPush® so different and what is actually new about this product range from Kesseböhmer Group? viPush® stands for customisation. Even the smallest production order can be provided in all finishes, materials and designs needed to match the hotel's corporate identity.

The standard collection alone consists of more than ten wood panel colours, several structure colour finishes, three different trolley sizes (L, M and S) and the options as satellite, roller shutter, drawer or the pull-out shelves are the basis for any intelligent room management respecting the individual space and operational requirements. The mobile satellite unit is clipped to the main trolley but can be easily unclipped and taken into the hotel room. A clever solution to evacuate dirty laundry out of the room quickly, easily and without moving the main housekeeping trolley through the corridor! More specific configurations can be offered to fulfill each hotel's individual need.

An electrical impulse start engine* enables the trolley to start rolling without much effort. A major advantage and frequently requested aid when pushing a fully loaded and heavy chambermaid trolley. Another major viPush® innovation is the use of non-marking corner bumpers fully integrated into the structure which prevent the impact marks on hotels' corridor walls. The fifth central wheel on the models L and M trolley contributes to increase the rolling comfort and facilitates the handling.

**Option on demand.*

p.39 **FOOD PLATE TOWER**

Your guests will be brought to note your hotel on several criteria. The quality of the food service is at least as important as the quality of the reception and the general cleanliness. viPush® products dedicated to the food service and catering will allow you to ensure these operations in an optimal way, both in the kitchen area as well as for the room-service or providing the minibar supplies.

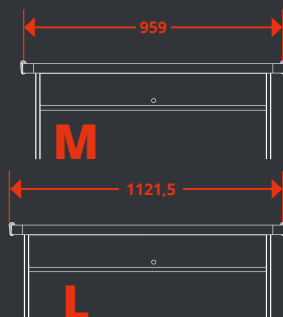

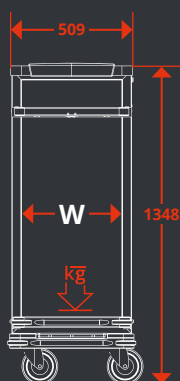

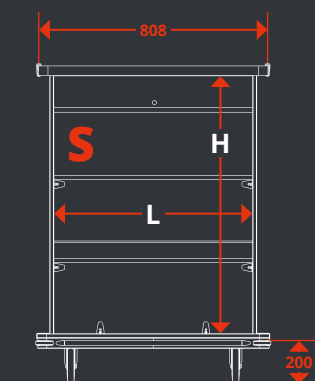

MINIBAR

MINIBAR L, M & S

viPush® Minibar Refill carts are versatile and adapt themselves to all the customers' needs. In standard configuration, the cart includes an upper drawer for the storage of small welcome amenities and two fixed shelves equipped with retaining bars allowing to organize the rows of bottles. In option, the internal space can be reorganized completely to fit to your specific needs. A wide pallet of colors for the wooden panels and the steel structure allow you to personalize your cart by making it more original or, on the contrary, to make it fit perfectly with the more traditional color codes of the hotel.
